Maximum capping for NCB will be 50%.

NCB shall be subject to the Following:

- The percentage of applicable NCB is to be computed on the Own Damage premium required for renewal of the insurance after deducting any rebate in respect of "Vehicle Laid Up" under the policy. If the policy period has been extended in lieu of the rebate for the lay up of the vehicle, as per "Vehicle Laid Up" Regulation, such extended period shall be deemed to have

been part of the preceding year of insurance.

- (b) The entitlement of NCB shall follow the fortune of the original insured and not the vehicle or the policy. In the event of transfer of interest in the policy from one insured to another, the entitlement of NCB for the new insured will be as per the transferee's eligibility following the transfer of interest.

It is however, clarified that the entitlement of No Claim Bonus will be applicable for the substituted vehicle subject to the provision that the substituted vehicle on which the entitled NCB is to be applied is of the same class (as per this tariff) as the vehicle on which the NCB has been earned.

Provided that where the insured is an individual, and on his/her death the custody and use of the vehicle pass to his/her spouse and/or children and/or parents, the NCB entitlement of the original insured will pass on to such person/s to whom the custody and use of the vehicle pass.

- (c) The percentage of NCB earned on a vehicle owned by an institution during the period when it was allotted to and exclusively operated by an employee should be passed on to the employee if the ownership of the vehicle is transferred in the name of the employee. This will however require submission of a suitable letter from the employer confirming that prior to transfer of ownership of the vehicle to the employee, it was allotted to and exclusively operated by the employee during the period in which the NCB was earned.
- (d) In the event of the insured, transferring his insurance from one insurer to another insurer, the transferee insurer may allow the same rate of NCB which the insured would have received from the previous insurer. Evidence of the insured's NCB entitlement either in the form of a renewal notice or a letter confirming the NCB entitlement from the previous insurer will be required for this purpose.

Where the insured is unable to produce such evidence of NCB entitlement from the previous insurer, the claimed NCB may be permitted after obtaining from the insured a declaration as per the following wording:

"I / We declare that the rate of NCB claimed by me/us is correct and that no claim as arisen in the expiring policy period (copy of the policy enclosed).I/We further undertake that if this declaration is found to be incorrect, all benefits under the policy in respect of Section I of the Policy will stand forfeited."

Notwithstanding the above declaration, the insurer allowing the NCB will be obliged to write to the policy issuing office of the previous insurer by recorded delivery calling for confirmation of the entitlement and rate of NCB for the particular insured and the previous insurer shall be obliged to provide the information sought within 30 days of receipt of the letter of enquiry failing which the matter will be treated as a breach of Tariff on the part of the previous insurer. Failure of the insurer granting the NCB to write to the previous insurer **within 21 days** after granting the cover will also constitute a breach of the Tariff.

- (e) If an insured vehicle is sold and not replaced immediately, or laid up, and the policy is not renewed immediately after expiry, NCB, if any, may be granted on a subsequent insurance, provided such fresh insurance is effected within 3 (three) years from the expiry of the previous insurance. The rate of NCB applicable to the fresh policy shall be that earned at the expiry of the last 12 months period of insurance.
- (f) On production of evidence of having earned NCB abroad, an insured may be granted NCB on a new policy taken out in

India as per entitlement earned abroad, provided the policy is taken out in India within three years of expiry of the overseas insurance policy, subject to relevant provisions of NCB under these rules.

- (g) Except as provided in Rule (e), no NCB can be allowed when a policy is not renewed within 90 days of its expiry.
- (h) Except as provided in Rules (e), (f) and (g) above, NCB is to be allowed only when the vehicle has been insured continuously for a period of 12 months without any break.

No Claim Bonus Rules in case of Transfer of Ownership:

Recovery of NCB from the new owner shall be the NCB percent as mentioned in the policy schedule i.e. the entry NCB. However Reserving Letter to the Old owner should be the actual earned NCB at the time of sale of vehicle.

Premium Payment in Instalments (wherever applicable)

If the Insured Person has opted for Payment of Premium on an instalment basis i.e. Lumpsum, Half Yearly instalments, Quarterly instalments, 3 EMIs (Equated Monthly instalments), 6 EMIs or 9 EMIs, as mentioned in the Policy Schedule, the following Conditions shall apply (notwithstanding any terms contrary elsewhere in the policy)

- During such grace period, coverage will not be available from the due date of instalment premium till the date of receipt of premium by Company.

Conditions

The Insured is obligated to declare the actual total distance that the Insured Vehicle has covered since its first registration as per the Odometer reading (in KM) of the Insured Vehicle as at the Policy Inception date.

The physical distance that the Insured Vehicle covered at any chosen date during the Policy Period is then calculated as the difference between the Odometer readings on the respective date and the Odometer reading at the start of the Policy (and as recorded in the Policy Schedule).

Where the Insured fails to declare the actual Odometer reading (in KM) at the Policy Inception date, the latest Odometer reading (in KM) declared to the Company (whether declared in the proposal form or at the time of renewal or any date preceding the Policy Inception date) shall be considered as the Odometer reading (in KM) of the Insured Vehicle at the Policy inception date.

Available Kilometres means sum of the below fields specified in the Policy Schedule –

However, this condition shall not be applicable in case of Theft and/or Fire and/or Motor Third Party cover.

No claim has been admitted under Own Damage Section of the expiring Policy. In case of claim being reported in the expiring policy after the renewal of the Policy, any Carry Forward Limit already provided during renewal shall be revised to zero, and the Insured shall be given the option to buy appropriate Top Up Limit.

The accumulated ‘Carry Forward Limit’ shall not exceed the distance as specified in the Policy Schedule, in total for a given Policy.

Such one-time discount shall be available for redemption for up to 3 years and can be availed by the Insured at any Policy Inception that falls in such 3 years of opting out of the Limit Sure cover. The Company, however, reserves the right, to extend this discount to the same customer after a skipped renewal.

The Company upon its discretion shall extend the option to transfer the ‘Carry Forward Limit’ or the equivalent ‘One-time discount’ to any other Private Car belonging to the Insured

under the following circumstances:

*Available Kilometer or Grace Limit (as specified in the Policy schedule), whichever is lower

Claims occurring during Grace Limit is payable (subject to all other terms and condition) if and only if the Insured opts for a suitable Top Up Limit before the expiry of the Grace Limit.

In circumstances wherein the Insured has failed to opt for a suitable Top Up Limit before expiry of the Grace Limit after the earlier exhaustion of the ‘Available Kilometres’ Limit during the Policy Period, the Company shall reserve the rights to restore the Motor Own Damage cover subject to meeting underwriting conditions and upon receipt of appropriate ‘Restoration Premium’ of 10% of the annual Own Damage cover. However, even after such restoration, any claim that has occurred after expiry of the ‘Available Kilometres’ Limit until the date of Restoration shall remain inadmissible under the Policy.

The Company shall not allow for reduction in ‘Kilometre Limit’ or in ‘Top up Limit’ or ‘Available Kilometres’ during the Policy Period.

The third-party liability cover shall be available for the Policy Period as mentioned in the Policy Schedule.

In the event of permanent loss or irretrievability or deletion of the distance travelled information from the Odometer or malfunctioning of the Odometer of the Insured Vehicle, due to action of fortuitous perils that are beyond the control of the Insured, the Company may consider partial payment of vehicle Accidental Claims based on satisfactory investigation and or forensic studies.

The Insured may opt to cancel the Policy by giving the Company notice in writing. All cancellations shall be subject to refund scale and minimum premium retention as per the Motor Own Damage policy on which this Cover is attached.

1. Battery (EVB)

Means an electric vehicle battery (EVB) (also known as 'traction battery') used to power the electric motors of a battery electric vehicle (BEV) or hybrid electric vehicle (HEV). These batteries are usually rechargeable (secondary) batteries and are typically the Lithium-Ion batteries. These batteries are specifically designed for a high ampere-hour (or Kilowatt-hour) capacity. Electric vehicle batteries differ from starting, lighting and ignition (SLI) batteries as they are designed to go give power over sustained periods of time and are deep-cycle batteries.

2. Battery Electric Vehicle (BEV)

A Battery Electric Vehicle (BEV), a pure electric vehicle, only electric vehicle, fully electric vehicle or all electric vehicle is a type of electric vehicle that exclusively uses chemical energy stored in rechargeable battery packs, with no secondary source of propulsion (e.g. hydrogen fuel cell, internal combustion engine, etc.) Battery Electric Vehicle derive all power from battery packs and thus have no internal combustion engine, or fuel tank.

3. Battery Management System (BMS)

A Battery Management System (BMS) is an electronic system that manages EVB, such as by protecting the battery from operating outside its safe operating area, monitoring its state, calculating secondary data, reporting that data, controlling its environment, authenticating it and/ or balancing it.

The BMS also controls the charging and discharging, as well as recharging of the battery by redirecting the recovered energy (i.e., from regenerative braking) back into the EVB. Inverter, converter and the cooling systems also form part of the BMS.

For the purposes of this Policy, it means the original BMS provided by the Manufacturer along with new purchase of the Vehicle without any modifications, or the original BMS that has been replaced by the original equipment manufacturer following some fortuitous event.

4. Electric Motor and Differential

Means the core component of the Battery Electric Vehicle and Hybrid Electric Vehicle that converts electrical energy into mechanical energy and uses electric power from the traction of the battery, turning the transmission and the wheels.

For the purposes of this Policy, it means the original Electric Motor provided by the Manufacturer along with new purchase of the Vehicle without any modifications, or the original Electric Motor that has been replaced by the original equipment manufacturer following some fortuitous event.

5. Electric vehicle

An electric vehicle is a vehicle that uses one or more electric motors for propulsion. It can be powered by a collector system, with electricity from extravehicular sources, or it can be powered autonomously by a battery (sometimes charged by solar panels), or by converting fuel to electricity using fuel cells or a generator.

Electric Vehicle means either Battery Electric Vehicle (BEV) or Hybrid Electric Vehicle (HEV).

6. Insured Vehicle

Means the Electric Vehicle and Hybrid Electric Vehicle defined below in section 1.5 and 1.7 respectively. It is alternatively referred to as simply Vehicle or Electric Vehicle. It includes standard tools and accessories that are provided by the Manufacturer of the Vehicle at the time of new purchase of the Vehicle.

It is identifiable by the Chassis Number and Motor Number provided by the Manufacturer.

For the purpose of this Policy, only vehicles manufactured by a recognized Manufacturer, who is a member of the Society of Indian Automobile Manufacturers ('SIAM') are insurable. Further, such vehicles are certified by Automotive Research Association of India ('ARAI') with regards to the top speed and the Motor's power.

7. Hybrid Electric Vehicle

A Hybrid electric vehicle is powered by an internal combustion engine and one or more electric motors, which uses energy stored in the batteries. A hybrid electric vehicle cannot be plugged in to charge the battery. Instead, the battery is charged through regenerative braking and by the internal combustion engine.

Hybrid Electric Vehicle system Means the system that contains of electric motor, DC/DC step down converter, electric generator and power electronics controller.

8. State of Health (SOH) of the Lithium-Ion Battery

Means the measurement of condition of the Lithium-Ion Battery compared with that of the manufacturer's specification for the Lithium-Ion Battery. It is generally expressed in percentage terms, ranging between 0% to 100%. 100% means that battery's condition is fully meeting the manufacturer's specifications. The typical factors considered in these calculations are (the list below is inclusive but not exhaustive):

- Internal Resistance or conductance
- Battery Capacity
- Voltage
- Self-discharge
- Age of the battery

For e.g. If Policy Premium for a two-year (730 days) policy is Rs. 900, and if cancellation is effected on expiry of 243 days from policy inception, then The Return Premium = $900 * (1 - (243 / 730)) = 600.4$.
